

## SEO Doctor for webmasters

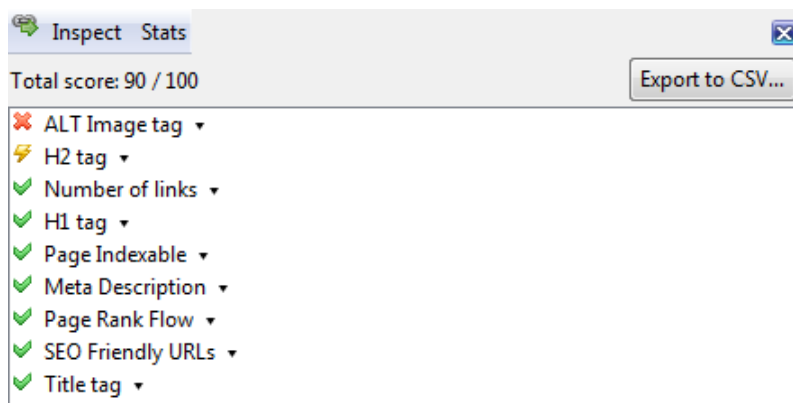

SEO Doctor is a Firefox add-on that allows easy SEO (Search Engine Optimization) diagnosis and problem solving for webmasters.

This SEO tool caters for both beginners and experienced SEOs in mind and offers fast SEO diagnosis and solutions for common problems. It's geared toward helping you understand the many primary SEO problems a website may have, as well as providing a snap shot picture of what factors are making your competitors websites successful.

## Installing & using SEO Doctor

1. Launch the Firefox browser
2. Google “Firefox SEO doctor”
3. Click on Add to Firefox, and install the add-on
4. Once this is installed you will see an icon on the bottom left side of the browser, similar to , click on this.

You should now see another panel appear at the bottom of the browser, similar to the screen shot below. If your site is optimized, the score should be 100/100, if not then you will need to focus on correcting the elements flagged.

*Please note: Though your website/web pages may score 100/100, this does not guarantee that you will be ranked #1, there are additional factors that influence search engine ranking.*
